

Guía Rápida de Uso 2016

Acerca de ASME

La American Society of Mechanical Engineers fue fundada en 1880 y actualmente cuenta con más de 127 mil miembros de 151 países. Su objetivo es promover el arte y la ciencia de la ingeniería multidisciplinaria, así como de ciencias asociadas en todo el mundo.

El alcance temático de los contenidos de ASME abarca, entre otras áreas:

- ✦ Diseño asistido por computadora
- ✦ Calderas a presión
- ✦ Carreras
- ✦ Construcción
- ✦ Empaques eléctricos
- ✦ Energía
- ✦ Energía sustentable
- ✦ Evaluación no-destrucciona
- ✦ Fuentes de alimentación
- ✦ Gestión de tecnología
- ✦ Industria aeroespacial
- ✦ Industria de defensa
- ✦ Ingeniería ártica y marina
- ✦ Ingeniería biomecánica
- ✦ Ingeniería de fluidos
- ✦ Ingeniería de sistemas
- ✦ Ingeniería nuclear
- ✦ Manufactura
- ✦ Mecánica aplicada
- ✦ Motores de combustión interna
- ✦ Nanotecnología
- ✦ Robótica y mecatrónica
- ✦ Sistemas automotrices
- ✦ Sistemas dinámicos
- ✦ Transferencia de calor
- ✦ Transportación
- ✦ Tribología

Página Principal de ASME Digital Collection

<http://asmedigitalcollection.asme.org/>

The screenshot shows the ASME Digital Collection homepage. At the top, there is a navigation bar with 'ASME.ORG', 'SIGN IN', and 'View Cart'. Below this is the ASME logo and 'DIGITAL COLLECTION' text, followed by a search bar and 'ADVANCED SEARCH' link. A secondary navigation bar includes 'Home', 'Journals', 'Conference Proceedings', 'eBooks', 'Topic Collections', 'Library Service Center', 'Faculty Positions', and 'Help'. The main content area features a carousel of book covers, a 'Newest Content' section with 'Applied Mechanics Reviews' articles, a '2016 Joint Rail Conference' announcement, and an 'AMR Podcast' section with an audio player for 'Applied Mechanics Reviews Audio Interview: Prof. Rodney Clifton'. A 'Topic Collections' sidebar lists categories like Design Engineering, Energy, Fluids Engineering, and Heat Transfer.

The screenshot displays the ASME Digital Collection website. At the top left is the ASME logo with the text "DIGITAL COLLECTION" and "THE AMERICAN SOCIETY OF MECHANICAL ENGINEERS". A search bar with the placeholder "Search Journals" and a "SEARCH" button is located to the right. Social media icons for LinkedIn, Facebook, Twitter, and YouTube are in the top right corner. A navigation menu below the header includes "Home", "Journals", "Conference Proceedings", "eBooks", "Topic Collections", "Library Service Center", "Faculty Positions", and "Help".

The main content area features a carousel of journal covers. The covers shown are: "JOURNAL OF COMPUTING AND INFORMATION SCIENCE IN ENGINEERING", "JOURNAL OF DYNAMIC SYSTEMS, MEASUREMENT AND CONTROL", "JOURNAL OF ELECTROCHEMICAL ENERGY CONVERSION AND STORAGE", and "JOURNAL OF ELECTRONIC PACKAGING". A circled number "1" is placed over the fourth cover. To the right of the carousel is a "NEWS" section with a circled number "2". The news text reads: "ASME Journal Program NEWS The ASME Journal of Thermal Science and Engineering Application has been accepted into the Thomson Reuters SCI and will be receiving an Impact Factor in 2016!".

Below the carousel is a "Browse All Journals" section with a circled number "3". It lists two journals:

- Applied Mechanics Reviews**: This international review journal serves as a premier venue for dissemination of material across all sub-disciplines of applied mechanics and engineering science, including fluids and solids, heat transfer, dynamics and vibration. Links: [Journal Home](#) | [Newest Issue](#) | [All Issues](#)
- ASCE-ASME Journal of Risk and Uncertainty in Engineering Systems, Part B: Mechanical Engineering**: This journal serves as a medium for dissemination of research findings, best practices and concerns, and for discussion and debate on risk and uncertainty related issues.

Applied Mechanics Reviews Audio Interview: Prof. Rodney Clifton

32 minutes, 40 seconds

Prof. Rodney Clifton is among the pioneers in the development of experimental techniques for characterizing high-strain-rate material response, recognized with membership in the National Academy of Engineering in 1989 and the ASME Timoshenko Medal in 2000. This AMR audio interview tells his story from a modest background in a one-room country school, through his labor on the early construction of Interstate 80 in Nebraska, to research on computational techniques for wave propagation in elastic-plastic materials, innovative approaches to characterizing the viscoelastic response of vocal folds, and a life-long commitment to teaching and learning.

3 ASME Conference Publications
ASME sponsors more than 30 conferences per year and publishes approximately 100 proceedings volumes annually. Conference topics encompass the entire spectrum of subject areas of interest to mechanical engineers and associated disciplines. ASME Conference Proceedings are available in print and also in digital format through the ASME Digital Collection. Individual conference papers from 2002 to the present are currently available through the ASME Digital Collection.

ASME Press is an imprint of The American Society of Mechanical Engineers (ASME), established to publish books and now eBooks beyond the Society's traditional programs of publications sponsored by ASME's technical divisions. The ASME Digital Collection currently contains over 180 new and classic eBooks and will increase by approximately 15 new titles each year.

ASME Press publishes high-quality professional and reference works, handbooks, select non-ASME conference proceedings, as well as advanced monographs in established and emerging areas of interest to mechanical engineers and allied disciplines.

Colecciones Temáticas

1. Seleccionar la deseada en el listado

The screenshot shows the ASME Digital Collection website. At the top left is the ASME logo and 'DIGITAL COLLECTION' text. Below it is 'THE AMERICAN SOCIETY OF MECHANICAL ENGINEERS'. A search bar is present with the text 'Search ASME Digital Collection' and a 'SEARCH' button. To the right is an 'ADVANCED SEARCH' link and social media icons for ASME, Facebook, Twitter, and LinkedIn. A navigation bar contains links for 'Home', 'Journals', 'Conference Proceedings', 'Topic Collections', 'Library Service Center', 'Faculty Positions', and 'Help'. A large grey arrow with the number '1' points to the 'Topic Collections' link. Below the navigation bar, the page title is 'ASME Topic Collections'. A sub-header reads: 'Topic Collections offer a quick and easy way to track up-to-the-minute content published by ASME on the topics that interest you.' A list of topic collections is shown: 'Aerospace Industry', 'Applied Mechanics', 'Automotive Systems', 'Biomechanical Engineering', and 'Boilers & Pressure Vessels'.

2. Se abrirá un listado con tres pestañas para visualizar: revistas, libros o memorias de conferencias

The screenshot shows the ASME Digital Collection website with the 'Aerospace Industry' topic collection selected. The navigation bar is the same as in the previous screenshot. Below it, the page title is 'Aerospace Industry' and there is an 'Email Alert' link. A sub-navigation bar contains three tabs: 'Journals', 'eBooks', and 'Proceedings'. A large grey arrow with the number '2' points to the 'Journals' tab. Below the tabs, the page displays a list of journal articles. The first article is from the 'Journal of Engineering for Gas Turbines and Power' (research-article, 2016) titled 'Unsteady CFD investigation of effusion cooling process in a lean burn aero-engine combustor' by Lorenzo Mazzei, Alessio Picchi, Antonio Andreini, Bruno Facchini and Ignazio Vitale. The second article is from the 'Journal of Heat Transfer' (research-article, 2016) titled 'Impingement Heat Transfer on a Cylindrical, Concave Surface with Varying Jet Geometries' by C. Neil Jordan, Lesley Wright and Daniel C. Crites. A third article from the 'Journal of Heat Transfer' (research-article) is partially visible at the bottom. Each article entry includes a PDF icon on the right.

FIGURES IN THIS ARTICLE

As we move into the second decade of the 21st century, we can identify three research trends that we can expect to persist into the future. They are the analysis and synthesis of (i) spatial mechanisms and robotic systems, (ii) compliant linkage systems, and (iii) tensegrity and cable-driven systems. In each case, we find that researchers are formulating and solving polynomial systems of total degrees that dwarf those
